

Community Employment

Quality Staffing Solutions

610-317-8000 x501

Via is a leader in employment training and placement and has helped thousands of people with disabilities gain meaningful employment in our community. Hundreds of companies have prospered by hiring dedicated, quality employees through Via while diversifying their workforce.

HOW DOES VIA HELP BUSINESSES FIND THE RIGHT MATCH?

Via's staff work closely with businesses to match job seekers who will enhance your company's productivity, efficiency and profitability. We work with job seekers one-on-one to understand their unique skills, capabilities, and needs – and continue to support them after they have been hired with mentoring and coaching. With our experience and expertise, we know how to find the types of jobs and working environments where our employees can add value and thrive.

Via partners with businesses to truly understand their staffing needs, business and culture, and then work with them to successfully integrate our job seekers into their workforce. Via provides consultation and assistance to the employer and on-the-job-training and orientation for the employee.

Via's support continues as long as needed, and typically becomes less or unnecessary as the employee becomes acclimated to the work situation and responsibilities and develops a natural support system among co-workers and peers.

Employment Specialists remain available to employers for questions or other help with:

- Job Training
- Talent Sourcing
- Job Searches
- Job Searches
